Create duo Test Case

in list Test Plan

Description   Edit

this test will verify that the bots selected from the list of choices can be added to the duo.

Steps

- Go to the http://localhost:3000/ when npm start is ran
- See all choices of the bots
- Pick two bots from the list and ensure they are added to duo
- Change the bots when removed form duo.
- Click on duel button

Post test conditions

- The bots selected should be added to the players duo queue
- Selected bot can be removed and returned to queue
